

RESUME

SORACHA CHAIPAITOON

ABOUT ME

A highly motivated Computer Science and Software Development student passionate about full-stack web development and AI-driven automation. Experienced in building responsive applications using React and ASP.NET Core MVC, with a strong foundation in database management. Eager to apply technical skills in software development and innovative technology solutions.

Nickname : Rew
DOB : 30/11/2002
Age : 24 ปี
Nationality : Thai
GPX : 2.98

LANGUAGE

- Thai (Native)
- English (Professional Working Proficiency)

INTERESTS

- AI Technology & Automation
- UI/UX Design

MY PORTFOLIO

EDUCATION

Sripatum University **2022-2026**
Computer Science and Software Development

PROJECTS

AI-driven LINE Chatbot

Developed an automated system designed to filter and summarize news. Integrated Make.com and Gemini AI to process information using natural language processing (NLP) and deliver concise updates through a LINE chatbot.

DressRental

Built a comprehensive web application for a female clothing rental service. Developed the frontend and backend logic using ASP.NET Core MVC (CSHTML) and managed the relational database structure using SQL Server.

SHARK SOUND

Created an interactive web application utilizing React to manage audio file loading, user interface styling, and audio playback functionality.

SKILLS

Programming

- JavaScript, Python, C#, SQL
- HTML, CSS, React
- Node.js, Express.js
- ASP.NET MVC, AJAX
- REST API & API Integration

Database & Tools

- MySQL, SQL Server, MongoDB
- Docker, n8n
- Git / GitHub
